

Bongo Live SMS Wordpress Installation & User Guide

Before you Start the Installation:

- You need to sign up for a Bongo Live account on www.bongolive.co.tz/ven_register.php
- Once you complete the sign up process, login to your 'Broadcaster' account on our homepage www.bongolive.co.tz.
- Click on 'Broadcast SMS' then click on 'Sender Names' in the bar under 'Broadcast SMS'.
- By default the mobile number registered on your account is active. If you like you can request a new 'Sender Name' that you can use to send sms with.
- Visit the 'Profile' tab or www.bongolive.co.tz/ven_profile.php and copy the 'API Key' into a document.
- Read the 'How to Use Bongo Live Manual' for more detailed instructions.

Step 1: Login to the admin panel of your wordpress blog/website as an Administrator. Visit the 'Plugins' page and search for 'sms' or 'bongolive sms'. Click on 'Install Now' on the plugin. It may ask for your 'FTP' password for your hosting account, so have that ready.
